

## myProbes® Price List - January 2021

myProbes is a custom design and manufacture service that provides unique fluorescence *in situ* hybridisation (FISH) probes using the BAC-2-FISH™ process. Based on your specific interests and research, custom FISH probes may range from a simple catalogue probe modification to a truly unique product.

- ▶ myProbes custom FISH probes are supplied in a directly-labelled, liquid format.
- ▶ myProbes can be ordered in custom quantities - minimum order of 10 tests.  
Multiprobe devices - minimum order of 50 devices.
- ▶ Probe maps are available upon request.
- ▶ For RESEARCH USE ONLY (RUO). Not for use in diagnostic procedures.
